

Project Learning at Home

Title:		
Who is this learning for?	Early Years (Nursery and Reception)	
What will you learn?	We will learn what seeds need to be able to grow into plants.	
<p><u>First let's listen to the story of The Tiny Seed by Eric Carle</u> https://www.youtube.com/watch?v=3mtpOVHJuP4&app=desktop</p> <p><u>Next let's find out more about seeds and how they grow:</u> https://www.youtube.com/watch?v=tkFPyue5X3Q&app=desktop</p> <p><u>Your activity:</u> We would like you to write a list or tell a grown-up about what a plant needs to grow. Can you draw and label four different stages of a seed turning into a plant.If you want, a grown-up can help you with this or you could print off pictures to stick in your book or on a sheet of paper.</p>		
Here are some things you could try...		
Plant some of your own seeds at home. Remember what seeds need to grow into plants. Please send us in some photos of your growing plants.	Paint a picture of your favourite plant.	Watch a time lapse video of a bean seed turning into a plant.It's amazing! https://www.youtube.com/watch?pbjreload=10&v=w77zPAAtVTul&app=desktop
