

MFL Curriculum

Intent, Implementation and Impact

Intent	Implementation	Impact
<p>At Ivingswood Academy, we use the language Angels scheme of work and resources to ensure we offer a relevant, broad, vibrant and ambitious foreign languages curriculum that will inspire and excite our pupils using a wide variety of topics and themes. All pupils will be expected to achieve their full potential by encouraging high expectations and excellent standards in their foreign language learning - the ultimate aim being that pupils will feel willing and able to continue studying languages beyond key stage 2.</p> <p>The intent is that all content will be continuously updated and reviewed annually, creating a dynamic programme of study that will be clearly outlined in both long-term and short-term planning. This will ensure that the foreign language knowledge of our pupils progresses within each academic year and is extended year upon year throughout the primary phase and, in so doing, will always be relevant and in line with meeting or exceeding national DfE requirements.</p> <p>The four key language learning skills; listening, speaking, reading and writing will be taught and all necessary grammar will be covered in an age-appropriate way across the primary phase. This will enable pupils to use and apply their learning in a variety of contexts, laying down solid</p>	<p>At Ivingswood Academy all classes have access to a very high-quality foreign languages curriculum using the Language Angels scheme of work and resources. This progressively develop pupil skills in French through regularly taught and well-planned weekly lessons in Year 3-6.</p> <p>Children will progressively acquire, use and apply a growing bank of vocabulary, language skills and grammatical knowledge organised around age-appropriate topics and themes - building blocks of language into more complex, fluent and authentic language.</p> <p>The planning of different levels of challenge and which units to teach at each stage of the academic year will be addressed dynamically and will be reviewed in detail annually as units are updated and added to the scheme. Lessons offering appropriate levels of challenge and stretch will be taught at all times to ensure pupils learn effectively, continuously building their knowledge of and enthusiasm for French.</p> <p>Early Language units are entry level units and are most appropriate for KS1 and Year 3 pupils or pupils with little or no previous foreign language learning.</p> <p>Intermediate units increase the level of challenge by increasing the amount and complexity (including foreign language grammar concepts) of the foreign language presented to pupils. Intermediate units are suitable for Year 4-5 pupils or pupils with embedded basic knowledge of the foreign language.</p> <p>Progressive and Creative Curriculum units are the most challenging units and are suitable for Year 6 pupils or pupils with a good understanding of the basics of the language they are learning. Children will be taught how to listen and read longer pieces of text gradually in the foreign language and they will have ample opportunities to speak, listen to, read and write the language being taught with and without scaffolds, frames and varying levels of support.</p> <p>Units, where possible and appropriate, will be linked to class topics and cross curricular themes. Children will build on previous knowledge gradually as their foreign language lessons continue to recycle, revise and consolidate previously learnt language whilst building on all four language skills: listening, speaking, reading and writing. Knowledge and awareness of required and appropriate grammar concepts will be taught throughout all units at all levels of challenge. Grammar rules and patterns will be taught by level of challenge:</p>	<p>At Ivingswood Academy we ensure that there is the opportunity to assess pupil learning and progression in the key language skills (speaking, listening, reading and writing) and against the 12 DfE Languages Programme of Study for Key Stage 2 attainment targets is provided at the end of each 6-week teaching unit.</p>

foundations for future language learning and also helping the children improve overall attainment in other subject areas. In addition, the children will be taught how to look up and research language they are unsure of and they will have a bank of reference materials to help them with their spoken and written tasks going forward. This bank of reference materials will develop into a reference library to help pupils recall and build on previous knowledge throughout their primary school language learning journey.

The intent is that all pupils will develop a genuine interest and positive curiosity about foreign languages, finding them enjoyable and stimulating. Learning a second language will also offer pupils the opportunity to explore relationships between language and identity, develop a deeper understanding of other cultures and the world around them with a better awareness of self, others and cultural differences. The intention is that they will be working towards becoming life-long language learners.

- We start with **nouns** and **articles** and **1st person singular of high frequency verbs** in **Early Learning** units.
- We move on to the use of the **possessive**, the **concept of adjectives**, use of the **negative form**, **conjunctions/connectives** and introduce the **concept of whole regular verb conjugation** in **Intermediate** units.
- We end with **opinions** and introduce the **concept of whole high frequency irregular verb conjugation** in **Progressive** units.

Grammar is integrated and taught discreetly throughout all appropriate units. Teachers can also use the specific **Grammar Explained** units to ensure pupils are exposed to all of the appropriate grammar so they are able to create their own accurate and personalised responses to complex authentic foreign language questions by the end of the primary phase.

Each unit and lesson will have clearly defined objectives and aims.

- Each lesson will incorporate interactive whiteboard materials to include ample **speaking** and **listening** tasks within a lesson.
- Lessons will incorporate **challenge sections** and desk-based activities that will be offered will three levels of stretch and differentiation. These may be sent home as homework if not completed in class.
- **Reading** and **writing** activities will be offered in all units. Some extended reading and writing activities are provided so that native speakers can also be catered for.
- Every unit will include a **grammar concept** which will increase in complexity as pupils move from **Early Language** units, through **Intermediate** units and into **Progressive** units.
- Extending writing activities are provided to ensure that pupils are recalling previously learnt language and, by reusing it, will be able to recall it and use it with greater ease and accuracy. These tasks will help to link units together and show that pupils are retaining and recalling the language taught with increased fluency and ease.

Units are progressive within themselves as subsequent lessons within a unit build on the language and knowledge taught in previous lessons. As pupils progress through the lessons in a unit they will build their knowledge and develop the complexity of the language they use. We think of the progression within the 6 lessons in a unit as **'language Lego'**. We provide blocks of language knowledge and, over the course of a 6-week unit, encourage pupils to build more complex and sophisticated language structures with their blocks of language knowledge.

Pupil learning and progression will be assessed at regular intervals in line with school policy. Teachers will aim to assess each language skill (**speaking, listening, reading and writing**) twice throughout each scholastic year to be able to provide reference points against which learning and progression in each skill can be demonstrated.
