

Hello Year 2. I hope that you had a nice Easter and didn't eat too much chocolate! It has been lovely talking to you on the phone and great to find out all the things you have been up to. Happy Birthday to Ellie-Mae for last week. Well done for those of you that have tried your own challenges at home, I am really impressed.

## Maths

This week we are going to be working on Position and Direction. For today's activities you need to look at the arrows to decide if the items are moving left, right, up, down, forwards or backwards.

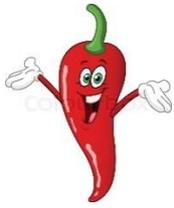

With the animals you need to look at the direction they will need to go to follow the arrow. For example, the bee here would need to turn left to follow the arrow. To help you, try and put yourself in the same direction as the creature.

Where the instructions say to circle the answer, write your answer in your book and I will send the answers tomorrow.

Choose your activity 1, 2 or 3 chillies, it's up to you but try and challenge yourself.

Keep scrolling to get the different maths activities and the English activity for today.

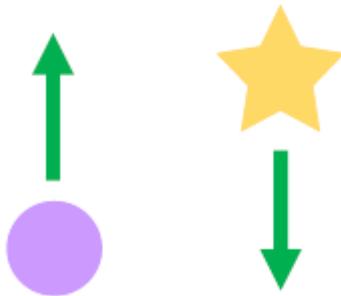

1a. In which direction is the triangle moving?

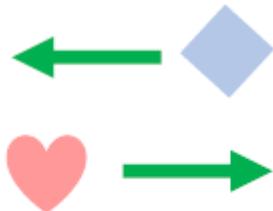

VF

2a. In which direction is each shape moving?

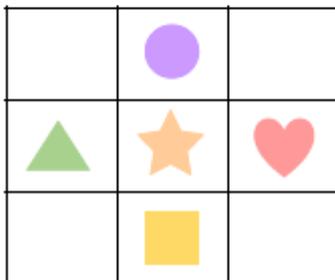

VF

3a. Circle the shape which is moving to the right.

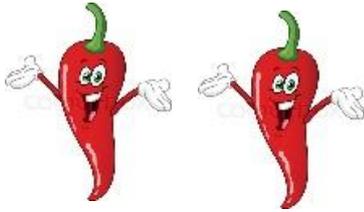

VF

4a. True or false? The circle is left of the star.

VF

VF

9a. In which direction is the ladybird moving?

VF

10a. In which direction is each creature moving?

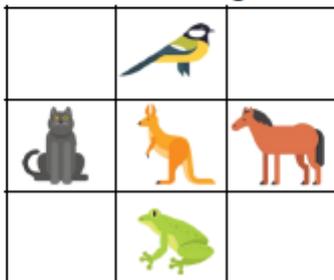

VF

11a. Circle the creature which is moving to the left.

VF

12a. True or false? The kangaroo is to the left of the bird and the right of the frog.

VF

## English activity

We are now going to start new Power of Reading book. It is called *The Great Explorer* and it is written and illustrated by Chris Judge.

Your first activity is to look at this picture of the front cover of the book and predict what you think this story is about? Who is this character? What are they doing and where are they going?

I would like you to write some sentences making your predictions.
