

Hello Year 2,

It has been really nice to see some of you lately when you have visited school and I have enjoyed catching up on the phone. If you need a new blue book or anything else from school, please let me know and I can drop it through your letterbox.

### Maths

Today you are continuing with the measuring, looking at the four different operations (+, -, x, ÷) and how we can use this with length.

Here is the link for the video today.

<https://vimeo.com/430299420>

### English

Today we are going to continue to write instructions. I would like you to write instructions for playing a game today, this could be a board game, a computer game, an outside game or even a game you have created.

Remember that we need to make sure you have a list of any equipment that you need and then write out the instructions in the right order using imperative verbs.

Here is my example for playing hopscotch.

#### Equipment

Hopscotch squares

A small stone for each player

1. Stand next to the number one on the hopscotch
2. Throw a stone onto a number
3. Jump on the numbers, starting with one
4. Stop when you get to your stone's number
5. Pick up the stone
6. Keep jumping on the numbers until you get to the end
7. Turn around and jump back to the start
