

Hello Year 2,

I hope that you are all okay. We have now come to the last week of term at school and it has been a very strange year indeed. I am glad that I will be teaching you again in September for a few weeks so that you can settle back into school.

This week I would like you to complete your own project work about anything that you like. The children in school have chosen some interesting things like wolves, ballet, inventions and Frozen 2! Have a look at your first activity for your project below.

### Maths

This week we are going to continue with time, I know it is a tricky new subject for all of you but if you keep practising then I am sure you will only get better.

Here is the link for today's maths lessons...

### English

Today I would like you to do two things, the first thing is to think about what subject you are going to do your project about, the second thing is to create a front cover for your project booklet.

Here are some examples of front covers about different subjects to inspire you.
