

Tuesday 28th April

Morning everyone,

I have just learnt that April is 'National Pet Month.' As you know, I do not have any pets, but many of you have. I even saw Holly D out walking her dog, Melody, on Saturday. Maybe you could draw me a picture of you and your pet and email it to office@ivingswoodacademy.org . My daughter is desperate for a dog, how do you think she could persuade me to get one?

English

Writing in sentences

<https://www.bbc.co.uk/bitesize/articles/zm6wjhv>

Remember your sentences need to make sense, be about one topic and have the correct type of punctuation. You can have sentences that are commands, statements and questions. Each type of sentence has different punctuation at the end.

Watch the clip from the link above and complete the tasks. If you do not complete activity 1 and 2 very well, make sure you repeat them. It is vital that you know which type of sentence uses which punctuation.

Maths

<https://whiterosemaths.com/homelearning/year-3/>

Week 2 – lesson 3 – Fractions of a set of objects (2). This learning on fractions builds on our learning so far. We are now learning how to find fractions of amount greater than $\frac{1}{4}$ or $\frac{1}{5}$, so maybe $\frac{2}{5}$ or $\frac{3}{4}$.

To do this you divide the amount by the bottom number (denominator) of the fraction, then multiply by the top number.

For example: $\frac{3}{4}$ of 20.

- 1) Divide 20 by 4 = 5
- 2) 5×3 (top number of fraction) = 15

$$\frac{3}{4} \text{ of } 20 = 15$$

Another example: $\frac{6}{10}$ of 50

- 1) Divide 50 by 10 = 5
- 2) 5×6 (top number of fraction) = 30

$$\frac{6}{10} \text{ of } 50 = 30$$

I hope the examples help you. Now complete the worksheet as best as you can.

Other activities

- <https://www.folly-farm.co.uk/webcams/> Watch the webcam of these animals at a farm in Wales.
- Play hangman using the words from this week's spellings

Well done and speak soon,

Mrs C Flynn 😊
