

Monday 4th May

Star Wars Day, May 4, celebrates Star Wars. It is observed by fans of the films. Are you a Star Wars fan? The date was chosen for the pun on the catchphrase "**May the Force** be with you" as "**May the Fourth** be with you".

I hope you all had a nice weekend and are looking forward to our learning together.

English

Follow the link below to a reading lesson based on Jill Murphy's, *The Worst Witch*. Some of you may have read some of her books before. *The Worst Witch* is also available on BBC iplayer if you fancy watching some episodes.

<https://www.bbc.co.uk/bitesize/articles/zjk9kmn>

Maths

When you follow the link below, we are on Summer 1 – Week 1 – lesson 1 – Equivalent fractions.

<https://whiterosemaths.com/homelearning/year-3/>

This lesson follows on from our learning about equivalent fractions and referring to the fraction wall again maybe useful. The worksheet asks the children to shade, but you can discuss with them how many sections they would shade. Do not worry about printing it out for them.

Other activities

- How does our body work?

Go outside and use chalk to draw around someone's body. Try to remember or research the different parts of the body to label.

- Spooky sounds

Sit quietly for 60 seconds, make a list of everything you can hear. Try this in different places, indoors, outdoors or even in the bath.

Are there any sounds missing that you would usually hear?

Did you hear any birds outside? Can you identify any of them? <https://www.british-birdsongs.uk/>

Well done and speak soon,

Mrs C Flynn 😊
