

## Tuesday 5<sup>th</sup> May

Morning everyone, I hope that you are all well. I am pleased that the sun has reappeared. This means that I can go outside to read after I have finished my work – that makes me happy. I will be calling you all again this week and I'd love to hear what learning you have enjoyed (plus any gossip!).

### **English**

Today we are using speech punctuation. This is something we have learned before, but we have not mastered, yet. Remember the “ “ go around the words that are spoken aloud. You always need to have some punctuation BEFORE you close the speech marks. Here is a little speech. Discuss this together and where the punctuation is and why.

“Get me out!” screamed Kate, “I’ve been stuck in this hole for hours.”

“We are trying to get you out as soon as we can,” replied Sam the fireman.

Follow the link below to watch the clips and complete the tasks.

### **Maths**

We are on Summer Term – Week 1 – Lesson 3 – Comparing Fractions.

Parents, we are using < > symbols today. These mean, greater than and less than. The point of the < is always towards the smaller number. Here are some as an example.  $12 < 16$ . This says 12 is smaller than 16.  $190 > 130$ . This says 190 is greater than 130. The children are using these symbols with fractions.

Follow the link below to watch the clip and complete the learning.

### **Other activities**

- Play a board game with the family – maybe you could tell me your favourite game when we speak this week
- A-Z treasure hunt. You must find an item from each letter either in the house or garden. Maybe you could play against a sibling or parent. What could you use for Z? I don't have a zebra at my house!

Well done and speak soon,

Mrs C Flynn 😊
