

Monday 6th July

Morning everyone. I do hope you had a lovely weekend. Some pupils have returned to school this morning and some of you are accessing this from home. Wherever you are, have a great day and try your best.

Today we are sending home a special Art Week challenge and your weekly Science and Topic work. Remember this work can be done at anytime during the week, but the English and Maths should be done every day.

English

Today we are continuing our learning on conjunctions. One of the main SPaG objectives for Year 3 is to use conjunctions, so we must know what they are and how to use them. Follow the link below for the learning videos and suggested activities.

<https://www.bbc.co.uk/bitesize/articles/zj6gn9q>

Maths

Today we are learning about shapes and in particular 2D shapes. What does 2d shapes mean? It means shapes that are 2 dimensional – so they are flat. You need to know what the properties of the shapes are (what makes a square a square for example) and you need to be able to spell the names of the shapes correctly. Follow this link to find your work on the BBC Bitesize page.

Other activities

-  Write out the alphabet in UPPER and lower cases. Can you remember which ones look different to each other? Which ones need to go through the bottom line of the page (descenders)?
-  Play TTRS
-  Count to 10 in French and Spanish

Well done

Mrs C Flynn 😊
